System 3R Tooling System

Chuck Adapters
System 3R provides a wide range of chuck adapters for clamping workpieces on pallets in the Macro, MacroJunior and Mini systems. The chuck adapters can interconnect all your machines to form a single system.

3R Electrode Holders and Chucks
Macro or MacroJunior pallet/holder/reference element

Blanks mounted on MacroJunior holders for the manufacture of electrodes. The stock range is matched to local preferences and ways of working. This applies to electrode materials, different grades of graphite and copper, and to dimensions.
